RIBA CPD Providers Network

Free or low cost quality CPD for your business

The RIBA CPD Providers Network helps construction professionals keep up to date. If you are an Architect, Architectural Technologist, Interior Designer, (Civil, M&E, Building Service) Engineer, Clerk of works, (Building, QS) Surveyor, Design Manager or Facilities Manager, our quality CPD will help you fulfil your CPD obligations – and teach you something new.

Every piece of material goes through a rigorous assessment process. The result is hundreds of high quality, free or low cost CPD material.

RIBA CPD Providers Network Cardiff Roadshow

RIBA 2009 CPD Roadshows are in partnership with Acrylison Systems

Thursday 1 October 2009
Cardiff Marriott Hotel
Cardiff, CF10 1EZ

Lunch & refreshments will be provided

Attendance is free of charge

All sessions are accredited under the RIBA and RSAW CPD CoreCurriculum
 Non RSAW and RIBA members and other construction professionals welcome to attend

Room 1

9.30–10.30

Canada Wood

Western red cedar - distinctive designs

- Red Cedar background information
- Environment and certification
- Characteristics and uses
- Product grades and sizes
- Building Codes overview
- Installation, finishing and maintenance

10.45–11.45

Gunnebo UK Limited

Security in the 21st century

- Key issues involved in the choice and specification of physical security products
- Product awareness
- Application awareness
- Accessing security risks

12.00–13.00

Safeguard Europe Ltd

Waterproofing basements and underground structures (new build)

- Why include a basement?
- Basement design considerations
- Relevant documents and standards
- Types of waterproofing systems
- Other considerations

13.45–14.45

Kemper Systems

Liquid roofing - The cold facts

- History of flat roofing
- Solutions to waterproofing problems
- Problems associated with hot systems
- Features and benefits of cold applied systems
- Applications
- Specifying data

15.00–16.00

Dow Corning Ltd

Designing green buildings with silicone materials

- Why silicone?
- How do silicones enable greener buildings?
- Designing a green building with silicone materials
- Application areas
- Available silicone technology to address these applications
- Green manufacturing

Room 2

Acrylic Systems

Generic resins and their real life performance

- Why specify industrial flooring
- When does a floor fail - taint/smell
- The different types of resin on the market - building regulations
- The performance characteristics of each resin type
- Whole life pricing analysis
- Environmental impact of resins

Hafele

The what, why and where of sliding door gear

- Understanding how sliding systems work
- When to use the system
- Different types of application: sliding, sliding folding and sliding stacking systems
- Mechanics of door gear systems, advantages / disadvantages

BSW Timber

Pi - Panel intelligence by BSW

- New & innovative timber build system that uses FSC certified British Timber
- Fast, safe and cost effective build
- How to achieve superior thermal performance
- How modular panel system can interconnect to form any structure
- Ideal for housing associations, housebuilders, care homes and schools

Centremapslive

Mapping data – 2D and 3D information

- Measuring building heights and ground heights using oblique imagery
- Coverage, currency and resolution of datasets, online imagery choices

- Using historical mapping and environmental data
- PDB licences for OS MasterMap v IBU
- Managing data licences

Euroclad Limited

Factors to consider when specifying a standing seam roof

- What is standing seam roofing?
- Typical constructions and material choices
- Design flexibility
- Benefits of standing seam
- Sustainability
- Comparisons with steel faced sandwich panels

Want to gain a full day's worth of RSAW and RIBA CPD?

RIBA CPD Providers Network and the Royal Society of Architects in Wales (RSAW) invite you to a full day's CPD.

This is a unique opportunity for all construction and design professionals to gain up-to-date knowledge and enhance personal proficiency on a wide range of subjects as well as earning CPD points from some of the top companies in their fields.

Each session is one hour, and you can book as many as five sessions throughout the day.

Attendance is **FREE** so to ensure a place for the seminar/s you wish to attend, simply complete and return the booking form.

Places are limited so hurry and book your place!

All sessions are accredited under the RIBA Core Curriculum in Construction Skills, Practice Management, Professional Context, Managing Projects and Health

The RSAW and RIBA CPD Core Curriculum aims to bring clarity and focus to the essential skills you need to maintain competence and enhance your development.

It does not require any additional work on your part and can be integrated into your CPD program over time.

The RIBA CPD Providers Network members are here to help you.

All attendees will receive a free NBS Learning Channels DVD "Sustainability Spotlight", covering a range of issues relating to sustainable construction.

The Code for Sustainable Homes

This programme investigates what zero carbon really means and if the Government's target to make all new homes zero carbon by 2016 is realistic and indeed, is there such a thing as a zero carbon house.

SUDS (Sustainable Urban Drainage Systems)

This programme looks at the reasons for adopting SUDS, investigates different types of SUDS systems, and explores techniques and regulations for their correct installation and maintenance.

WRAP – Recycling and Waste Reduction

This programme takes an in-depth look at the initiatives used by WRAP to reduce the amount of waste going to landfill and to increase the amount of recycled content used in construction.

1834 – 2009
