All sessions are accredited under the new RIBA CPD Core Curriculum in Health and Safety, Climate, External Mangement, Internal Management, Compliance, Building Procurement and Contracts, Designing and Building It, Where We Live, Context and Access For All.

RIBA 2011 CPD Roadshows are in partnership with

The radically new, greatly simplified RIBA CPD Core Curriculum is effective from launch in September 2011.

The RIBA CPD Core Curriculum aims to bring clarity and focus to the essential skills needed to maintain competence and enhance development. The new much simplified structure will enable architects to tailor their CPD requirements to suit their area of professional expertise.

It does not require any additional work on the individuals part and can be integrated into CPD programmes over time.

The RIBA CPD Providers Network members are here to help you.
