

Working at height - good practice in design

6 November 2008, London

Forthcoming Events

Building a cleaner future: low carbon technologies
25 November 2008, London

For more information about forthcoming events, please visit: www.cpn.org.uk

CPD

Each day course has a value of 2 hours towards your CPD

Venue

CIRIA, Classic House
174-180 Old Street
London EC1V 9BP

Course fees

CPN/CIRIA Core members Free
Non members £50+VAT (£58.75)

How to book

Complete and fax the form overleaf to CIRIA on +44(0)20 7253 0523

or

call the events team on +44(0)20 7549 3300

or

register online at www.cpn.org.uk

Background

Working at height is obviously dangerous, as evidenced by the annual death toll in construction. Designers are charged, under health and safety legislation, with taking the risks into account in their designs by eliminating the hazard where they can reasonably do so and by reducing the residual risk, taking everything into account.

In order to make sensible, informed decisions on these matters, designers need to understand what can be done on site (and later, during maintenance and operation). They need to know how safe erection is planned and organised and the role that the various safety systems now available can play.

Designers are often faced with making their design decisions without the benefit of consulting with the contractors who will do the work. They also have to decide what information to provide to contractors. In doing their work they have to cooperate and communicate with others in a proactive manner.

This CPN event has been organised to gather knowledge and explore the various issues involved. It is intended as a contribution to the HSE's 'shattered lives' campaign and it has the support of the Health and Safety Committee of the CIC. As well as the presentations, vigorous discussion is anticipated - both in formal session and informally.

Programme

13.00	Registration and refreshments	15.00	Networking break with refreshments
13.30	Chairman's introduction Mark Poole, PCM Safety	15.20	Design for safe maintenance and operation John Carpenter, Consultant
13.45	Understanding rope access, restraint and fall-arrest systems Barney Green, Combisafe	15.45	Discussion session
14.10	Design for safe erection - steelwork Pete Walker, British Constructional Steelwork Association (BCSA)	16.30	Chairman's summary
14.35	Design for safe erection - precast concrete Norman Brown, British Precast Concrete Federation(BPCF)	16.45	Close

Further information

CIRIA recommends this workshop for 2 hours towards CPD requirements with the ICE, CIOB, RIBA & RICS, CIBSE, IstructE

Booking form

Working at height - good practice in design (E8118) 6 November 2008, London

Contact name: _____

Email address: _____

Confirmation details will be sent by email.

Company name: _____

Position: _____

Address: _____

Payment method

FREE – I am a CPN/CIRIA Core Member I am NOT a CIRIA member*
£50+VAT(£8.75) Total £58.75

I enclose a cheque for _____ payable to CIRIA.

Please charge my Mastercard Visa Amex

Card No.

Security code:

The last 3 digits (Amex 4) of the number printed on the signature strip.

Expiry date:

Cardholder's name as shown on card: _____

Date: _____ Cardholder's signature: _____

**Please photocopy this form and fax it to our Events team on +44 (0)20 7253 0523
or mail it to CIRIA, Classic House, 174–180 Old Street, London EC1V 9BP**

Additional delegates: Please photocopy this form for each additional delegate

Printed on Mondi Color Copy from the Green Range, which consists entirely of FSC certified paper from well managed forests, TCF (totally chlorine-free)

Terms and Conditions

Registration for paying delegates will be secured on receipt of payment (CIRIA members may register using a company purchase order reference). A VAT invoice/receipt will be issued on receipt of payment.

Any registration fee paid will not be refunded unless written confirmation of cancellation is received at least five working days before the workshop. Substitute delegates are welcome.

Non-paying delegates are asked to let CIRIA's events team know if they are unable to attend as soon as possible so that their place may be offered to an alternative delegate. Substitute delegates are welcome.

Email confirmation of registrations will be sent out by CIRIA two weeks before the workshop.

CIRIA reserves the right to vary the programme and cancel the event in case of insufficient registrations.

Personal data is gathered in accordance with the Data Protection Act 1998. CIRIA will only contact you about products and services relevant to you and your organisation.

CPN

CPN provides members with a range of interactive workshops and events led by some of the industry's foremost practitioners. Attended by many of the construction industry's leading managers, CPN continues to promote the sharing of knowledge across all facets of the construction sector.

Benefits of membership

- up to date information on key issues and legislation
- opportunity to network with members and other experts
- awareness of new technology and management techniques
- free access to an annual programme of events
- access to the CPN website and electronic forum
- event proceedings and selected reports

Further information

For further information on CPN membership, outputs and forward programme, please contact the events team at CIRIA:

Tel: 020 7549 3300
Fax: 020 7253 0523
Email: enquiries@ciria.org
Web: www.cpn.org.uk

The CPN is owned by CIRIA with support from an industry based steering group.
