

Concrete

technical day organised by RIBA South East

Tuesday 28 April 2009

Woodland Enterprise Centre, Flimwell, East Sussex

What could concrete do for your building design? Do you know about the latest decorative uses of concrete? And exactly how can it help you to deliver a sustainable building?

At this latest of our ever-popular Technical Days, you will learn from experts based in The Concrete Centre about

- how to achieve 'visual concrete'
- sustainable concrete construction
- precast architectural solutions – in concrete
- thermal mass in concrete and masonry housing.

There will also be a small exhibition and literature provided. Stay for as much or as little of the day as you like. Up to five hours of CPD for only £35, including lunch.

Book now! Booking form and programme overleaf

Core Curriculum:

- ✓ **Professional Context & Construction Skills**
