## SAVE THE DATE

### RSAW Annual Conference 2020 - Reduce Reuse Recycle

Monday 23 - Friday 27 November 2020

This year's RSAW Annual Conference will be held digitally over the course of a week, where we will be exploring the significance of reuse in the built environment sector today. Each day we will be joined by local and international industry experts, who will deliver a series of virtual lectures and webinars. They will share best practice examples of sustainable design and the importance of retrofit over demolition. This conference will cover topics of particular interest to students and the wider built environment.
