

WALES FUTURE PRACTICE CPD PROGRAMME

Spring Series February to May 2020

Attendees in 2019 said:

“Really interesting... a lot of content and I can see a number of lessons to be learnt”

Building Regulations: Fire Safety 18/06/19

“An extraordinary day, so powerful.”

Summer School 05/07/19

“Brilliantly conceived and impeccably executed!”

Summer School 05/07/19

“Everything was really good and well-organised.”

CDM 2015: your essential guide to designer duties
26/09/19

Tailored to the Welsh context
Responsive to changes in
Welsh Government legislation
North, West and South
Wales venues

Welcome to the RSAW Wales Future Practice CPD programme

RSAW CPD sessions are tailored to reflect the Welsh legislative and cultural context to help practices of all sizes working in Wales to develop and thrive. We aim to make CPD interesting and relevant, from focussed small practice updates to national conferences addressing major policy issues. During 2020, we are offering CPD seminars in locations across Wales, with particular focus on sustainable design, in line with the Well-being of Future Generations Act 2015.

RIBA core curriculum topics:

- 1 Architecture for social purpose
- 2 Health, safety and wellbeing
- 3 Business, clients and services
- 4 Legal, regulatory and statutory compliance
- 5 Procurement and contracts
- 6 Sustainable architecture
- 7 Inclusive environments
- 8 Places, planning and communities
- 9 Building conservation and heritage
- 10 Design, construction and technology

WALES FUTURE PRACTICE CPD PROGRAMME

SPRING SERIES
FEBRUARY TO MAY 2020

Your practice - how to survive and succeed!

Phase 1: Tuesday 4th February, 2pm—4.30pm

Phase 2: Thursday 7th May, 2pm—4.30pm

Creative Quarter, Cardiff

In the current economic situation, many architects are struggling to attract work and grow their practice. While architects are among the most highly qualified and dedicated professionals in the built environment sector, they often lack a formal training in business which can hold back the success of a practice, or career, despite clear abilities and skills in the practice of architecture.

This workshop is an introduction to the approach to business applied by the very best business coaches in the world. It has led to success for a vast range of businesses, including architects, and covers the key areas to ensure a solid business model for the future: mindset; business basics; the business 'chassis'; and business approach.

Intended for practices new to this way of working, we are offering a phase two session later in the year where there will be a chance to review the impact of changes and to build on your progress.

Speaker: Robert Firth,
Architect and Business Coach.

- Core curriculum topic: 3
 - Members £60 + VAT; non-members £90 + VAT
- For both sessions

How to advise your clients on their CDM duties

Creative Quarter, Cardiff:

Tuesday 11th February, 2pm—4.30pm

Oriel Mostyn, Llandudno:

Tuesday 25th February, 2pm—4.30pm

This seminar will explore the role of the architect as Principal Designer, focusing on issues around advising clients in accordance with the CDM 2015 regulations. Since the Health and Safety Executive's CDM 2015 Regulations came into effect, architects have been embracing the newly created Principal Designer role. This seminar will focus on issues faced by architects around advising clients in accordance with the CDM 2015 Regulations.

Speaker: Paul Bussey,
Allford Hall Monaghan Morris.

- Core curriculum topics: 2, 4
- Members £49 + VAT; non-members £65 + VAT.

Active Buildings in Practice

Active Classroom, Swansea:

Thursday 20th February, 1pm—4pm

Creative Quarter, Cardiff:

Thursday 27th February, 1pm—4pm

Oriel Mostyn, Llandudno:

Tuesday 10th March, 10am—1pm

At this workshop, architects will be introduced to the Active Building concept and a new Design Guide being developed to enable the design of Active Buildings. Participants are invited to contribute knowledge to this new Design Guide, through undertaking a short design exercise and taking part in feedback discussions. The information collected in the workshop will be used to inform the Design Guide which is being developed and validated as part of a Professional Doctorate in the Sustainable Built Environment (DSBE) by the speaker of the session.

Speaker: Joanna Clarke, Head of Design,
Active Buildings Centre.

- Core curriculum topics: 6, 10
- Members free; non-members £25 + VAT; reservation essential

Sustainable design in historic buildings

Monday 30th March, 2pm—4.30pm
Centre for Alternative Technology, Machynlleth

The session will explore the important decisions that architects face when balancing sustainable design principles with conservation practice in historic or listed properties in sensitive locations. We explore how to balance apparently conflicting requirements, we review the planning framework and we ask what factors do you need to take into consideration to arrive at an acceptable compromise for your client? Topics covered include the specification of materials, construction and renovation techniques and in-depth case studies of recent projects involving historic buildings.

There will be time for delegates to share experiences of their own projects and you are welcome to send specific queries in advance for the speakers to respond to on the day.

Speakers: *Cindy Harris, Author and specialist in sustainable design and materials and Rob Gwillim, Renewable energy consultant and project manager with many years' experience in energy efficiency, building services and conservation projects.*

- Core curriculum topics: 4, 6, 9
 - Members £49 + VAT; non-members £65 + VAT.
-

Inclusive Environments: designing for neighbourhoods of the future

Wednesday 22nd April, 2pm—4.30pm
Creative Quarter, Cardiff

How do the buildings and neighbourhoods you design impact on users and their daily lives? This interactive seminar will demonstrate how to seamlessly integrate inclusive design principles into your designs and specifications, including little details that make a big difference. The session comprises live case studies, illustrated worked examples and updates on inclusive design standards, legislation and regulatory requirements.

Speaker: *Emma Luddington, Living Well at Home Ltd.*

- Core curriculum topics: 1, 2, 7
 - Members £49 + VAT; non-members £65 + VAT.
-

Acoustics, Ventilation and Overheating – Holistic façade design for all project types

Thursday 14th May, 1pm—4pm
Creative Quarter, Cardiff

Natural ventilation is an important low carbon tool for avoiding overheating in buildings. However, the presence of an open window can compromise the acoustic performance of the façade, forcing the occupant to choose between thermal and acoustic comfort.

This workshop will consider simple design solutions to create a balance between acoustic and thermal performance, how adding shading or choosing suitable glazing types can decrease the ventilation requirements for overheating and thus decrease noise ingress.

Speaker: *Ze Nunes, Managing Director, MACH Group.*

- Core curriculum topics: 6, 10
 - Members £49 + VAT; non-members £65 + VAT.
-
