RIBA

RIBA Leicester CPD Roadshow

Date: **14 February 2019**
Time: **9:30am – 4:00pm**
Venue: **Holiday Inn Leicester, St Nicholas Circle, Leicester LE1 5LX**

A full day of CPD and networking with fellow professionals

RIBA CPD Providers Network and RIBA East Midlands invite you to a full day's CPD. A unique opportunity for architects, and construction and design professionals to learn from members of the RIBA CPD Providers Network. You'll hear CPD Providers deliver RIBA-approved CPD and share their knowledge and expertise on a range of innovative products and the latest technologies.

– Attendance is free
– Wide range of topic areas
– Book up to five one-hour sessions
– Networking opportunities with fellow professionals
– RIBA-approved CPD presentations*
– All CPD seminars are delivered by RIBA CPD Providers Network** members
– Lunch and refreshments provided

Select a numbered seminar from each timeslot session and **book online at: ribacpd.com/cpdroadshow**

*All sessions are accredited under the RIBA CPD Core Curriculum in: Architecture for social purpose; Health, safety and wellbeing; Business, clients and services; Legal, regulatory and statutory compliance; Procurement and contracts; Sustainable architecture; Inclusive environments; Places, planning and communities; Conservation and heritage; Design, construction and technology.

**The RIBA CPD Providers Network is an industry force of over 500 companies and advisory organisations that provide RIBA-approved CPD to architects and other construction professionals.

'Very informative sessions with high quality speakers in an attractive venue and RIBA's high attention to detail make the event successful.'
Dinka Izetbegovic, delegate, London Roadshow January 2018

'This is an easy and enjoyable way for a sole practitioner or a small practice to keep up to date with new products and materials.'
John Melvin, delegate, Oxford Roadshow March 2018

RIBA Leicester CPD Roadshow: Timetable

	9:30 - 10:30 session	10:45 - 11:45 session	12:00 - 13:00 session	13:45 - 14:45 session	15:00 - 16:00 session
Seminar 1	**Precast Concrete Stairs** **Milbank Concrete Products Ltd** This seminar is about the design and specification of precast concrete stairs. It will help you to understand the following topics: – The advantages of using precast concrete stairs. – Design factors affecting waist thickness. – Typical connection and bearing details. – Curved stair supports and the constraints relating to precast curved flights. – The principles of how cantilever steps work. – The manufacture of precast straight, dog-leg and curved flights. – Transport considerations.	**Specifying Solutions for Crack Free Tile and Stone Coverings** **Schlüter-Systems Ltd** This seminar focuses on the stresses from drying shrinkage, deflection and moisture movement in the substrate, as well as thermal and moisture changes that affect the tile finish. It will help you to understand the following topics: – How to specify appropriate systems to prevent problems with tile finish, such as failed seal connections and cracked tiles and joints. – Movement joints for tile applications: what, why, when and where movement joints should be located. – Uncoupling systems: what, when and where they should be considered.	**PVC-U Windows: The Past, The Present, The Future** **Eurocell** This seminar looks at the specification of windows, specifically PVC-U windows, including issues such as U-values, noise attenuation, sustainability and recycling. – How the windows market has changed over the years – looking at past, present and future window specifications and requirements. – How PVC windows are appropriate in specialist applications. – Future developments within the window industry and how companies are future-proofing their systems.	**Specifying the Correct Door** **Hörmann (UK) Ltd** This seminar offers guidance on specifying the correct door for the right application. It covers the types of doors available for both domestic and industrial applications, and looks at the features and points of consideration for each type of door. This seminar also helps the specifier to understand: – The main differences between door types, including up and over doors, sectional overhead doors, roller doors and high speed doors. – How to specify the correct door for the right application.	**Understanding Partition Acoustics** **Optima** This seminar provides an overview of the sound insulation of partitions and doors. It will help you to understand the following topics: – Sound insulation performance in the context of glazed partitions and doors. – How acoustic performance is verified by laboratory testing. – How to decide what sound insulation performance is needed, and how to specify sound insulation with confidence. – Composite room-to-room sound insulation for partition plus door. – How sound insulation values are measured on site and how construction quality as a whole can affect that performance.
Seminar 2	**SUDS and the Role of Permeable Paving** **Brett Landscaping** This CPD provides an overview of the main drivers within the specification process for Sustainable Drainage Schemes (SUDS) as well as an understanding of the value of permeable paving within these schemes. SUDS will become increasingly frequent in the coming years following changes in planning guidance and future legislation. During the course of the seminar we will consider the following points: – Sustainability criteria of pavement design. – Sustainable drainage. – Permeable paving design and maintenance.	**Extreme Durable MDF – the Next Generation of Panels Products with a Minimum Service Life of 60 Years for Exterior and Interior Wet Applications** **MEDITE SMARTPLY** This seminar looks at: – What is wood modification via acetylation method? – What is Extreme Durable MDF? – Which tests have been performed on Extreme Durable MDF? – What are Extreme Durable MDF's leading uses?	**Part L1A 2013: Fabric Performance and Towards Passive/ NZEB Targets** **Xtratherm UK Ltd** This seminar focuses on the Building Regulations Part L1A 2013, fabric performance specification and the corresponding insulation specification for each of the fabric components. It also looks at specification changes expected to come in the near future to achieve upcoming Passive Level Performance and Nearly Zero-Energy Building standards. It will also help you to understand: – Target U-values and the reference house. – Thermal bridging and how to achieve good fabric performance. – The y-value calculation. – Airtightness targets.	**Unique Benefits of Stone Wool Ceilings in Healthcare** **Rockfon** This seminar will help you to specify appropriate ceilings for all healthcare buildings and understand the following topics: – The benefits of stone wool as a primary material type for ceilings. – Factors to consider when specifying ceilings, such as, layouts, colour and surfaces. – Infection control requirements. – Acoustics for privacy but also social interaction. – Lighting, access to nature and natural light. – How to ensure conformance to legislation in healthcare buildings (in particular, fire performance).	**Title to be confirmed** **Provider to be confirmed** This seminar looks at: – To be confirmed
